Risk of Investment

◆ Volatility Risk (Risk of Capital Loss)

Share prices can be very volatile in short periods. The share price may fall below the price which you originally paid for the share or even to zero. You may lose all or part of your investment amount.

◆ Risk of Erroneous Orders

If you are aware that the order is wrongly submitted, you can cancel the order only if the order is not executed yet.

But if the order is executed, you have to take all the risks on yourself.

Soft Limit of the Order Acceptance for Foreign Investor

When the foreign shareholding ratio exceeds the soft limit stipulated by YSX, the buy order placement from foreign client will be suspended and the existing buy order from foreign client will not be carried over. The foreign shareholding ratio is calculated and announced on every end of the day at YSX website.

Deposit into and Withdrawal from Securities Account

Governmental regulation requires foreign client to deposit fund for purchase of share from Residential Kyat Account for Securities (the "R-KAS") or Non-Residential Kyat Account for Securities (the "N-KAS"). If such fund is deposited to your securities account from any bank account other than R-KAS or N-KAS, such transfer may be rejected. As same, all withdrawal of cash from securities account will be transferred into only R-KAS or N-KAS.

Lock-Up due to change of resident status

When you change resident status, namely either resident to non-resident or non-resident to resident, you need to inform us of such change and need to open N-KAS or R-KAS respectively. While completion of such account opening, you are prohibited from making new buying order. Only new selling order is allowed.

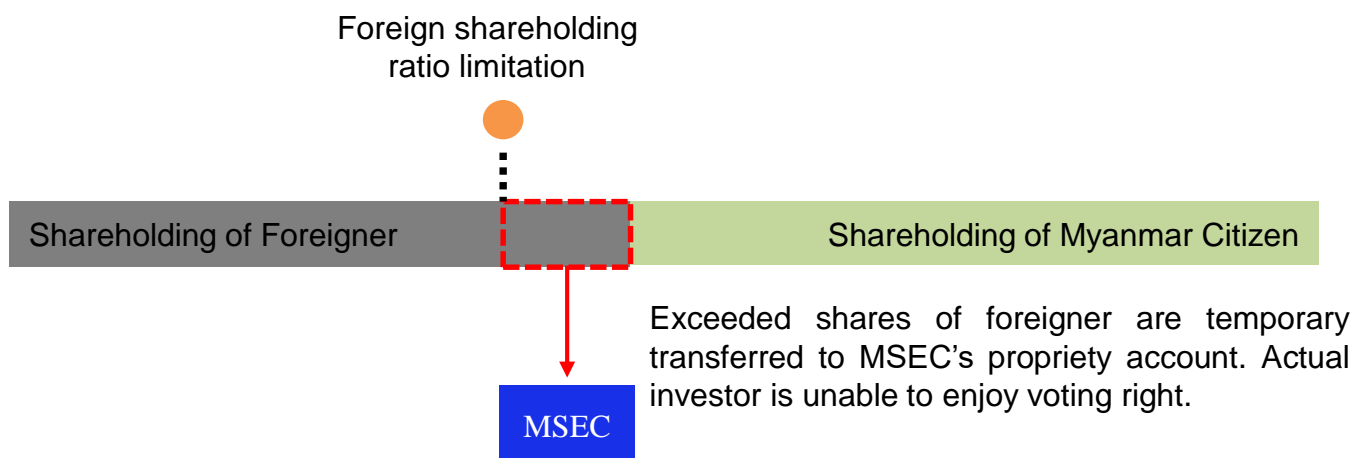

Dividend Payment and Voting Right for the Foreign Investor

The number of shares of the client which is exceeded foreign shareholding ratio limitation set by a listed company on the Record Date, the exceeded shares will be transferred to the MSEC's own account temporarily. On next Business day of the Record Date, those transferred shares will be retransferred back to the client's account.

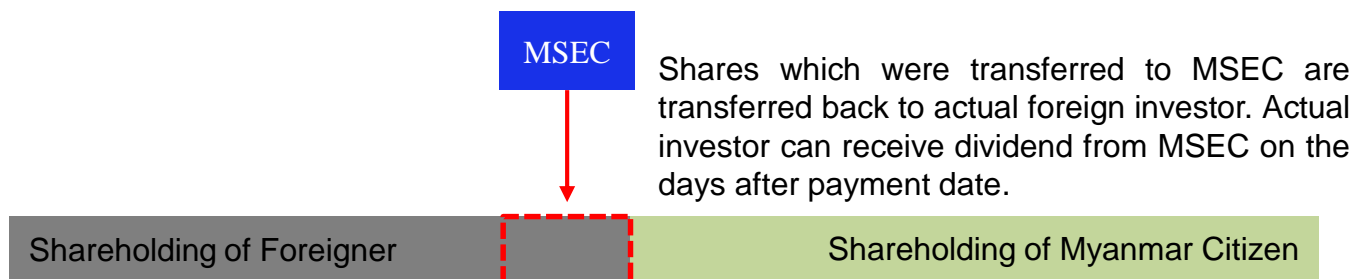

The dividend payment for the exceeded shares will be paid to the client's account from MSEC on the days after the actual payment date by the listed company.

The client will not have the voting right for the exceeded shares.
